Armor Case “BLOCK ACTIVE” Aluminium Case for Raspberry Pi 4 B

This aluminium-based Armor Case is perfect for your Raspberry Pi 4 if it gets hot, as this protects it against shocks and heat equally. Channel milling combined with dual fans offers best cooling performance. That's why it is suitable for extreme settings. Another benefit is that this case does not need more space than the Raspberry Pi itself and can be integrated in existing projects.

MAIN FEATURES

Material	CNC milled aluminium alloy
