### Power Amplifiers

Square-law class-A: a family of high-efficiency class-A power amplifiers - *Ian Hegglun* 6

---

### Loudspeakers and Cross-over filters

Project 21 Part II – Subwoofer and DSP system - *Jean-Claude Gaertner* 43

Project 21 - The remote level control system - *Jan Didden* 66

A universal Continuous-Time active filter - *Ramkumar Ramaswamy* 77

---

### Circuit design

Low-noise microphone preamp design - *Scott Wurcer* 97

The F-word - or, why there is no such thing as too much feedback - *Bruno Putzeys* 112

Some Feedback about Electrolytic Capacitors... - *Kendall Castor-Perry* 133

---

### Engineering reports

Resistor non-linearity - there's more to  $\Omega$  than meets the eye - *Ed Simon* 138

On the Noise Performance of Low Noise Input Stages - *Ovidiu Popa* 147

Self-improvement for capacitors - Linearization over time - *Douglas Self* 156

---

### Book Review

Bob Cordell, Designing Audio Power Amplifiers - *Jean-Pierre Vanderreydt* 162

Menno van der Veen, High End Valve Amplifiers 2- New Models and Applications - *Stuart Yaniger* 169

---

### Musings

Adventures of a diy-audio-addict - *Rudy van Stratum* 174

---

### Letters to the Editor

Burkhard Vogel comments to Joachim Gerhard and Frank Blöhbaum.

David Kimber comments to Frank Blöhbaum.

Peter van Willenswaard comments to Stuart Yaniger
